

Megamove II *(Demo)*

Megamove II is a little demo done by Manfred Trenz in 1986. The demo have found the way to the German C64 magazine "64'er Magazin". In this demo see you a starry sky in the background. A little and big space ship scrolls over it.

Katakis Development System *(Program)*

With only 2 weeks to go, Manfred used it for Katakis and so he called it

1. **Horizontal scrolling** (e.g., `HorizontalScrollView`)
 2. **Vertical scrolling** (e.g., `ScrollView`)
 3. **Complex scrolling** (e.g., `RecyclerView`)

Du hast mich für ein kleines Geld bei dir. Ich bin unter dem pseudonym Mattias Kranz.
